

# Our experience with the comprehensive care model

(Warning! This presentation includes gratuitous use of photos of my own kids.)

What is the comprehensive care model,  
anyway?

# Haemophilia treatment team

(Sorry, I don't have photos of everyone, but you get the idea..)

# Genetic testing to check carrier status

# Surgery for port insertions

# Physio and brace for ankle bleeds

# Dental care

# Travel advice and referrals

# Occupational therapy

# Genetic counselling and obstetric advice

# Neo natal testing and support

## What have been the benefits?

Range of services

Quality of services

Not having to re-teach

Ease of access

Things don't fall between the cracks

Emotional security

... and most importantly....

# Health of the boys!
