Getting involved and fundraising tips

This year in October we will have a whole month to raise awareness about bleeding disorders.

The theme this year for Bleeding Disorders Awareness Month is 'New Possibilities'. Throughout the month we'll showcase how everyone in our community supports people with bleeding disorders and raise awareness.

We'll share personal stories, bust some myths about bleeding disorders, and direct you to resources on taking care of yourself and your mental wellbeing. There will also be activities for kids, events, information sessions, competitions, and more.

The last week of October will be Red Week. During the week organize an activity with your family or friends around something red – wear red to school, bake red cupcakes, red hair day – the ideas are endless!!

There are many ways you can get involved:

- Host a red-themed morning tea at school or work
- Have a 'dress in red' day where people either dress in red, or wear a red item to work - like a red tie or a red pair of shoes
- Run a pop-up stall selling red cupcakes
- Join in on the kids activities, including colour-in competitions and scavenger hunts
- Attend one of the Foundation events held in your local state
- Host a red themed crafternoon – we have colour in sheets and other great ideas on our website
- Put up BDAM posters around your school or workplace
- Set up a fundraising page – this way people who cannot attend your event can donate as well

Donations over \$2 are tax Deductible

Registered as Haemophilia Foundation Australia Incorporated, No. A0012245M. ABN 89 443 537 189

Where will the donations go?

Haemophilia Foundation Australia's fundraising target is \$20,000. This will enable us to support some of our programs and services across Australia such as peer support programs, new and updated resources and keep up our advocacy work.

Peer support programs, such as family weekends are vital. They provide a stress-free environment where families can meet to share experience and create networks amongst members thus developing ongoing peer support. Without such a weekend, many kids would never have the opportunity to meet and interact with other kids with a bleeding disorder, except perhaps in a clinic environment.

We are constantly reviewing and producing new information resources. From the moment a family gets a diagnosis, parents rely on HFA to help them understand and manage their child's condition, by providing balanced and accurate information about risks, types of treatment, and how children with haemophilia really live.

Promotional items

Promotional items are available to order free of charge for your event. What do we have?
